BEFORE USING YOUR PHONE

Please read this chapter before using this product.

- 1 Package Includes
- 2 Handset Description
- 3 Basic Functions
- 4 Display Indicators
- 5 Using the Battery
- 6 Charging the Battery
- 7 Important Battery Information

PACKAGE INCLUDES

Thank you for purchasing this product. Please check the product contents by comparing them with the following pictures.

Handset

Desktop Charger

Standard Battery

Extended Battery (optional)

User Manual

Handstrap

In case there are any product defects, please report them to the place of purchase immediately.

HANDSET DESCRIPTION

BASIC FUNCTIONS

THE FUNCTION KEYS

This key is used to make or receive a call.

This key is used to terminate a call or exit the current menu. This key is used to turn the hand-set on or off.

This key(also called the Navigation key)is used to scroll through the contents of the menu.

(Soft 1) This key is used to access the Menu when pressed and held for more than 1 second.

(Soft 2) This key is used to access voice or text messages.

This key is used to access the internet.

This key is used to clear characters.

Press and hold to set up manner mode.

Press and hold to set up lock mode.

DISPLAY INDICATORS

SCREEN STATUS, DISPLAY AND FUNCTION

Signal Strength

Indicates current signal strength. More lines mean better signal strength.

Roaming

Indicates the phone is outside of its home area.

Service Indicator

When a call is in progress,  is displayed. When  is displayed, the phone is in idle mode. When  is displayed, the phone is not receiving a signal from the system.

Message

Indicates a text message or voice mail message is waiting.

Schedules

Indicates 'Schedule'.

Digital mode

Indicates the phone is operating in digital mode.

Battery

Indicates battery charge level status. The more black you see, the greater the charge.

Bell

Indicates an incoming call with a ring alert.

Vibration

Indicates an incoming call with a vibration alert.

USING THE BATTERY

INSTALLING THE BATTERY

- 1 Insert the bottom of battery into the groove at the bottom of the handset. Then 2 press in the top of the battery until it snaps.

REMOVING THE BATTERY

- 1 Push the tab 1 with one hand and lift the top of the battery 2 to separate.

The battery must be correctly placed in the battery compartment. If battery is incorrectly inserted, the handset will not turn on or the battery may slip out during use.

[6]

CHARGING THE BATTERY

POWER CONNECTION

- 1 Connect the charger to a standard 120V AC outlet.

CHARGING THE BATTERY ONLY

- 1 To charge the battery only, insert the battery pack into the charging slot on the charger. The LED will indicate the charging status. RED indicates charging is in progress. Green indicates charging is complete.

- Battery is not charged when you purchase the product.
- Fully charge the battery before use.

[7]

CHARGING THE BATTERY

CHARGING THE BATTERY WITH THE HANDSET

- 1 To charge the battery with the handset, insert the handset into the charger.

Charging the battery with the handset on is less efficient than charging it with the handset off.

CHARGING COMPLETION

- 1 Charging is completed when the green-colored LED stays on.

[8]

CHARGING THE BATTERY

STATUS OF CHARGER LED

Charging in Progress (Red Color On)	Charging Completion (Green Color On)
	

- Recommendation : check the cleanliness of the gold battery contacts(front & back) if the LED is flickering while charging.
- LED may change from red to green back and forth after battery is full charged. This does not indicate any problems with charging the battery.

BATTERY LIFE (FOR NEW BATTERY)

Status \ Type	Standard Battery (1000 mAh)	Extended Battery (1550 mAh)
Talk (min)	185	280
Stand by (hrs)	130	190

Battery Type	Std. Battery(Min) (1000 mAh)	Extd.Battery(Min) (1550 mAh)
Charging Time	300	300

[9]

IMPORTANT BATTERY INFORMATION

Use only batteries and chargers approved by the phone manufacturer.

When a charger is not in use, disconnect it from the power source. Do not leave the battery connected to a charger for longer than a week; overcharging may shorten its life.

If left unused, a fully charged battery may completely drain (discharge) in 1 - 4 weeks.

Never use any charger or battery that is damaged or worn out.

Use the battery only for its intended purpose.

Do not short circuit the battery. Accidental short circuiting can occur when a metallic object (e.g. coin, clip or pen) causes direct connection of the two terminals of the battery (metal strips on the back of the battery). For example, when you carry a spare battery in your pocket or purse. Short circuiting the terminals may damage the battery or the connecting object.

Leaving the battery in hot or cold places, such as in a closed car in summer or winter conditions, reduces the capacity and lifetime of the battery. Always try to keep the battery between 41°F and 95°F (5°C and 35°C). A phone with a hot or cold battery may temporarily not work (or charge) even if the battery is fully charged.

Temperature extremes affect the ability of your battery to charge; allow it to cool down or warm up first.

When the battery is not in use, store it uncharged in a cool, dark and dry place.

The battery is a sealed unit with no serviceable parts. Do not attempt to open the case.

It is recommended that you allow your battery to fully discharge before you recharge it.

The battery can be charged and discharged hundreds of times but will eventually wear out. When the operating time is shorter than normal, it is time to buy a new battery.

Do not discard the battery into fire!

Dispose of used batteries in accordance with local regulations.

Recycle!

BASIC OPERATION

- 1 Turning the Phone On and Off
- 2 How to Use the Menu
- 3 Menu Summary
- 4 Basic Functions
- 5 Functions During a Call

[11]

TURNING THE PHONE ON AND OFF

TURNING THE PHONE ON

- 1
 - Press [].
 - The phone is locked if "LOCK" is displayed on the screen. When "LOCK" is displayed, enter the 4-digit lock code to unlock the phone.
 - The default lock code is the last 4 digits of your phone number.

TURNING THE PHONE OFF

- 1
 - Press [] until "Powering off" is displayed.

- If the "LOW BATTERY WARNING POWER OFF" is displayed and the power goes off, there is a possibility of damaging the memory. Change or charge the battery immediately.
- If the battery is removed while the phone is on, information about the last call may be erased.

HOW TO USE THE MENU

- 1 In the standby screen, press and hold [].
- 2 Use the navigation key or the volume keys to view the menu. Press and hold down the keys to scroll through the menu.
- 3 To go back to previous screen, press []. To exit menu, press [].
- 4 To go into submenu, press the corresponding number or select the desired item using the scroll key.
- 5 [], [], and [] / [] / [] / [] can be used while using the menu.

[15]

BASIC FUNCTIONS

MAKING A CALL

1

Enter the phone number.

To modify the phone number you have entered:

- To erase the last number entered: Press [].
- To erase all numbers entered and start again: Press [] and hold for more than half or a second.

2

Press [].

- "CALL FAILED" message is displayed when the call does not connect.
- If the line is busy, press []. Retry by pressing [].
- If you select the AUTO RETRY function, the call will be retried automatically for the time you have selected.

Press [] to end the call.

BASIC FUNCTIONS

PAUSE FEATURE

Pauses are used for automated systems (i.e., voice mail and calling cards). To insert pauses:

1

Enter phone number, then press [].

2

Select desired pause.

- | | |
|-----------------------|---------------------------------|
| - When idling status; | - Receiving call status Menu to |
| 1 : STORE | 1 : SEND PHONE# |
| 2 : BY NUMBER | 2 : SCRATCHPAD |
| 3 : HARD PAUSE | 3 : MUTE |
| 4 : ONE HYPHEN | 4 : VIEW PHONE# |
| | 5 : VOICE PRIVACY |

Pause Definitions

- **HARD PAUSE:** If you enter the pause character (P), the number entered after the pause character will be sent after the number dialed.

3

- Press [] to dial or [], then [1] to store.

BASIC FUNCTIONS

HOW TO ANSWER CALLS

- 1 When the phone rings or the LED blinks, press any key except Volume up, Volume down or [].
- 2 To end the call, press [].

AUTO ANSWER

This function allows an incoming call to automatically be answered after a set number of rings.
To enable this function, press [], [4], [2].

If you set up the AUTOANSWER function in advance, the call will be answered after the selected number of rings. (Refer to page 37)

CALLER ID FUNCTION

When there is an incoming call, the caller's phone number is displayed on the screen.

The Caller ID number is saved in the call log.

CALL WAITING FUNCTION

This function notifies you there is an incoming call when you are on the phone.

- To answer the call, press [] when you hear the beep.
- To switch back to the first caller, press [] again.

BASIC FUNCTIONS

MISSED CALL DISPLAY

- 1 Displays the number of missed calls and the time the call was missed.
 - The message will be cleared when you press the [] or []key.

HOW TO ADJUST VOLUME

You can adjust the volume in two ways: by using the volume control keys on the side of the handset, or by using the menu.

- 1 Adjust volume by using the volume control keys during the following operation.
 - During a Call : Earpiece volume adjustment.
 - Standby Status : Ringer volume adjustment.
 - When the Phone Rings : Ringer volume adjustment.
 - Call Status in Hands-Free : Hands-free volume adjustment. Press [] when the phone rings and it will mute the ringer.

VIBRATE

This function disables the ringer and vibrates the phone to alert you of an incoming call. To enable this function, press [], [5],[1] and select VIBRATE by pressing the "up" and "down" keys at the upper left side of the phone".

FUNCTIONS DURING A CALL

SENDING YOUR NUMBER TO A PAGER

This function enables the phone number of the handset to be transmitted automatically to a pager, depending on pager service.

- 1 After calling a pager, when you are asked to enter your number, press and hold [] then [1] "SEND PHONE #".

SCRATCH PAD

- 1 While on a call, press and hold [], then [2] "SCRATCH PAD".

- 2 Enter the phone number, then press [].

FUNCTIONS DURING A CALL

MUTE

- 1 Press [], then [3] "Mute".

To unmute, press [], then [3] "Mute" again.

CHAPTER 3

MEMORY FUNCTION

- ❶ How to Store a Phone Number
- ❷ How to Make a Call Using a Stored Phone Number
- ❸ How to Find Your Call Logs
- ❹ How to Find Your Phone Book

HOW TO STORE A PHONE NUMBER

You can store up to 100 frequently used phone numbers in memory.

- 1 Enter the phone number (more 3 digits) you want to store and press [], then [1] "Store".

- The first available empty memory location number is displayed. If there is no empty location, "MEMORY IS FULL!" is displayed with a warning sound.
- If there is a desired memory location number, enter the number.

- 2 If the "LOCATION:XX IS SAME NUMBER" message appears after entering the memory location number, it means there is another stored phone number in that location already.

- 3 Enter the person's name and press [].

- 4 Select the mobile/office/home type and Press [].

- 5 To make secret, select Yes. If Yes is selected, the stored entry can only be displayed with the lock code.

[24]

HOW TO STORE A PHONE NUMBER

How to Enter Letters and Characters Using the Dial Buttons

1. Select characters you wish to enter using the key pad.

Key Pad	1 Repetition	2 Repetition	3 Repetition	4 Repetition	5 Repetition
0	0				
2ABC	A	B	C	2	
3DEF	D	E	F	3	
4GHI	G	H	I	4	
:	:	:	:	:	:
9WXYZ	W	X	Y	Z	9

- Press [] to toggle between upper and lower case.
 - When entering special characters, such as . @ - ' , / : ? () , press [1] repeatedly.
- 2 Cursor moves to the next column automatically four seconds after entering a character.
 3. Repeat until all the characters you want are entered.
 - You can store up to 16 characters.
 4. Erasing Entry.
 - To erase one letter, press [].
 - To erase the entire entry, press and hold [].
 5. T9 (Refer to page 75-80)

[25]

HOW TO MAKE A CALL USING A STORED PHONE NUMBER

ONE-TOUCH / TWO-TOUCH DIALING

This feature allows the phone book entries to be dialed via the keypad.

ONE-TOUCH DIALING:

0-9 : Press corresponding memory number and hold for more than 1 second.

TWO-TOUCH DIALING:

00-99 : press the first digit and the second digits of the memory number short and long respectively.

- If no phone number is stored in the location depressed, "Empty Location" will appear on the screen.
- If a phone number is stored in the secret location, the number is not displayed when making a call.

One-touch dialing must be turned on in the handset. See page 38.

HOW TO FIND YOUR CALL LOGS

Your phone can display the 10 most recent missed, incoming, and outgoing calls. You can call those numbers without dialing their whole number.

MISSED CALLS

1 Press [], then [2], then [1], then [1].

2 Press [] to check the detail information about phone number.

- The last missed call, its phone number, time and date are displayed.

3 To check your missed calls using the scroll keys:

- [] Scrolls up the phone numbers.
- [] Scrolls down the phone numbers.

4 Press [] to dial desired missed call number.

HOW TO FIND YOUR CALL LOGS

ANSWERED CALLS

(Refer to previous page.)

Press [], then [2], then [1], then [2].
Press [] to dial desired answered call number.

- The last answered call, its phone number, time and date are displayed.

DIALED CALLS

(Refer to previous page.)

Press [], then [2], then [1], then [3].
Press [] to dial desired dialed call number.

- The last outgoing call, its phone number, time and date are displayed.

HOW TO FIND YOUR PHONE BOOK

RECALLING BY MEMORY LOCATION NUMBER

1 Press [], then [2], then [2].

2 Enter the memory location number.

- If you don't enter a specific memory location number, use the scroll key to search from the first memory location number.

3 Search phone numbers using scroll key.

- []/[] scroll up and down the phone numbers.
- [] edit the phone number.
- [] erase the phone number.
- []/[] search mobile/office/home number.

4 Press [] to dial the desired phone book number.

HOW TO FIND YOUR PHONE BOOK

RECALLING BY NAME

1 Press [], then [2], then [3].

2 Enter the alpha (or part of the alpha).
Then press [].

3 To locate the phone number using the scroll key:

- []/[] search phone number.
- [] edit the phone number.
- [] erase the phone number.
- []/[] search mobile/office/home number.

4 Press [] to dial.

[30]

CHAPTER 4

MENU

Please read this chapter before using this product.

- 1 Check Billing Feature
- 2 Schedule
- 3 Settings
- 4 Volume
- 5 Call Timers
- 6 Alerts

[31]

CHECK BILLING FEATURE

This feature allows you to automatically dial your service provider's customer care center to check your phone bill balance.

1 Press [], then [1] "CHECK BILLING".

2 The phone number will be displayed on the screen and the phone will automatically dial customer service.

SCHEDULE

VIEW SCHEDULE LIST

1 Press [], then [3], then [1].

2 Press [] to view more details about each item.

SCHEDULE

INPUT SCHEDULE

1 Press [], then [3], then [2].

2 Select the date in calendar and press the [].

[] []-month input.

[] [], numeric key
-day input.

3 Press [1], and select the parameter (one time or daily).
To set alarm, press [2] and input the schedule title.
To set reserved call, press [3] and input the phone number.
Press [].

4 Input the time and press [].

[] []-AM/PM selection.

Numeric key-hour/minute input.

[] []-move position.

[34]

SCHEDULE

PAUSE ALL SCHEDULE

You can pause all schedule entries temporarily.

1 Press [], then [3], then [3].

2 Select the parameter (NO,YES) by using the scroll keys. Press [].

[35]

SETTINGS

AUTO RETRY

When a call is not connected, this function retries the call automatically at a set interval or amount or retries.

INTERVAL

1 Press [], then [4], then [1], then [1].

2 Select the parameter(OFF, 5 , 10 , 20 , 30 SECS) by using the scroll, then press [].

REPEAT

1 Press [], then [4], then [1], then [2].

2 Select the parameter (1 , 5 , 10 TIMES) by using the scroll, then press [].

[36]

SETTINGS

AUTO ANSWER

This function answers an incoming call automatically after a number of rings that the user sets.

1 Press [], then [4], then [2].

2 Select the parameter (NO USE, 1 , 3 RINGS) by using the scroll keys. Press [] to set.

- Auto answer function does not work if you select [SILENT] or [VIBRATE] or [SLIDE BELL] or [BELLAfter VIB].

[37]

SETTINGS

ONE-TOUCH DIALING

This function allows the phone book entries to be dialed via the keypad.

1 Press [], then [4], then [3].

2 Select the parameter (NO, YES) by using the scroll keys. Press [].

VOICE PRIVACY

1 Press [], then [4], then [4].

2 Select the parameter (STANDARD, ENHANCED) by using the scroll keys. Press [].

[38]

SETTINGS

BACKLIGHT

This function allows you to adjust time to light up the screen, so that you can conveniently use the phone even in dark places.

1 Press [], then [4], then [5].

2 Select the parameter (OFF, OFF IN DAY, 3, 5, 10 SECS) by using the scroll keys. Press [].

LCD CONTRAST

This function adjusts the LCD screen contrast.

1 Press [], then [4], then [6].

2 Select the contrast level by using the scroll keys. Press [].

[39]

SETTINGS

LOGO DISPLAY

1 Press [], then [4], then [7].

2 Select the parameter Banner(Date,World MAP) by using the scroll keys. Press [].

WEB IDLE TIME

This function disconnects from the network when there is no key input while browsing through the web. The display remains in the browser and the handset connects again to the network.

1 Press [], then [4], then [8], then input the web idle timer.

LANGUAGE

1 Press [], then [4], then [9].

2 Select the Language(ENGLISH,SPANISH)by using the scroll keys. Press [].

[40]

VOLUME

RING MODE

1 Press [], then [5], then [1].

2 Select the parameter (RINGER,SILENT,VIBRATE, BELL AFTER VIB, SLIDE BELL) by using the scroll keys.

3 Press [].

RING TYPE

1 Press [], then [5], then [2].

2 Select the parameter (1-13) by using the scroll keys.

- X Different tones (1-6).
-  Different melodies (7-13).

3 Press [].

[41]

VOLUME

KEY PAD

- 1 Press [], then [5], then [3].
 - If the warning alarm sounds because of low battery, the sound will not be heard even if the user presses the button.
- 2 Select the volume level by using the scroll keys.
 - [] [] scroll up to increase volume.
 - [] [] scroll down to lower volume, or setting to Silent.
- 3 Press [].

[42]

CALL TIMERS

LAST CALL

- 1 Press [], then [6], then [1].

ALL CALLS

- 1 Press [], then [6], then [2].

HOME CALLS

- 1 Press [], then [6], then [3].

ROAM CALLS

- 1 Press [], then [6], then [4].

[43]

ALERTS

MIN ALERT

This function sounds an alert every minute, letting you know the call lapse time.

- 1** Press [] then [8] then [1].

- 2** Select the parameter (ON, OFF) by using the scroll keys. Press [].

ROAM ALERT

This function sounds an alert and gives out a message when the handset enters a new service area, when it enters another service area, or when it leaves the user's service area.

- 1** Press [], then [8], then [2].

- 2** Select the parameter (ON, OFF) by using the scroll keys. Press [].

[44]

ALERTS

FADE ALERT

This function sounds an alert when the phone can not make calls due to poor signal strength while in idle mode.

- 1** Press [], then [8], then [3].

- 2** Select the parameter (ON, OFF) by using the scroll keys. Press [].

LOW SIGNAL ALERT

This function sounds an alert when the signal of a received call is weak during a call.

- 1** Press [], then [8], then [4].

- 2** Select the parameter (ON,OFF) by using the scroll keys. Press [].

[45]

ALERTS

CONNECT ALERT

This function sounds an alert when the call is made.

1 Press [], then [8], then [5].

2 Select the parameter (ON, OFF) by using the scroll keys. Press []

CHAPTER 5

SECURITY FEATURES

- ❶ How to Lock Your Phone
- ❷ How to Change Your Banner
- ❸ How to Restrict Your Phone
- ❹ How to Reset Your Phone
- ❺ How to Clear Your Phone Memory
- ❻ Memory Clearing Function

HOW TO LOCK YOUR PHONE

AUTO LOCK

This function prevents any other person from using the handset without permission. When it is locked, the handset can not be used to dial or use any other function.

- 1 Press [], then [0], then enter [PASSWORD], then [1].

- The default password is the last 4 digits of your phone number.

- 2 Select the parameter (OFF, POWER ON, ON) parameter by using the scroll keys. Press [].

- "POWER ON" locks the handset upon powering on the handset each time.
- "OFF" unlocks the handset and leaves it unlocked.

Incoming calls, emergency dialing and alarm functions are enabled when the handset is locked.

[48]

HOW TO LOCK YOUR PHONE

LOCK CODE CHANGE

This function is used to change the 4-digit lock code.

- 1 Press [], then [0], then enter [PASSWORD], then [2].

- The default password is the last 4 digits of your phone number.

- 2 Enter 4-digit new "PASSWORD?". Press [].

- 3 "ENTER AGAIN" will be displayed. Re-enter the new code and press [].

[49]

HOW TO CHANGE YOUR BANNER

BANNER CHANGE

This function changes the banner displayed on the LCD. You can enter a banner up to 16 characters long.

- 1 Press [], then [0], then enter [PASSWORD], then [3].

- 2 Enter a banner using instructions for alpha keys on page 25.

HOW TO RESTRICT YOUR PHONE

RESTRICTION FUNCTIONS

You can restrict 5 different functions.

- 1 Press [], then [0], then enter [PASSWORD], then [4].

- The default lock code is the last 4 digits of your phone number.

- 2 Using the scroll buttons, select "YES".
Press [].

TO RESTRICT INCOMING CALLS

When this function is enabled, the phone does not respond to incoming calls. However, outgoing calls can still be made.

- 1 Press [1] "INCOMING".

- 2 Select the parameter by using the scroll keys.

RESTRICT: restricts incoming calls.
ALLOW: allows incoming calls.

- 3 Press [].

HOW TO RESTRICT YOUR PHONE

RESTRICTING OUTGOING CALLS

When this function is enabled, incoming calls can be answered, but outgoing calls cannot be made. It is still possible to make emergency calls.

- Press [2] "OUTGOING". 
- Select the parameter by using the scroll keys.
RESTRICT: restricts outgoing calls.
ALLOW: allows outgoing calls.
- Press [] .

RESTRICTING THE PHONE BOOK

This function blocks the storage of phone numbers or the use of stored phone numbers.

- Press [3] "MEMORY". 
 - The default password is the last digits of your phone number.
- Select the parameter by using the scroll keys.
RESTRICT: restricts phone book.
ALLOW: allows phone book use.
- Press [] .

[52]

HOW TO RESTRICT YOUR PHONE

RESTRICTING LONG DISTANCE CALLS

- Press [4] "LONG DISTANCE".
- Select the parameter by using the scroll keys.
RESTRICT: restricts long distance calls.
ALLOW: allows long distance calls. 
- Press [] .

RESTRICT CALLS TO 900 NUMBERS

- Press [5] "900 #S".
- Select the parameter by using the scroll keys.
RESTRICT: restricts 900 service.
ALLOW: allows 900 service. 
- Press [] .

The message "THIS PHONE IS RESTRICTED" is displayed on the screen when a restricted call is placed.

[53]

HOW TO RESET YOUR PHONE

RESET

This function resets each value set in the memory to its default value.

- 1 Press [], then [0], then enter [PASSWORD], then [5].

- 2 Select the parameter by using the scroll keys. Press [].

- If you select "YES", the following screen is displayed, and then the phone will be automatically turned off.

HOW TO CLEAR YOUR PHONE MEMORY

CLEARING STORED PHONE NUMBERS

This function clears all stored numbers.

- 1 Press [], then [0], then enter [PASSWORD], then [6], then [1].

The default password is the last 4 digits of your phone number.

- 2 Select the parameter (NO, YES) by using the scroll keys. Press [].

CLEARING SCHEDULES

This function clears all schedule.

- 1 Press [], then [0], then enter [PASSWORD], then [6], then [2].

The default password is the last 4 digits of your phone number.

- 2 Select the parameter (NO, YES) by using the scroll keys. Press [].

MEMORY CLEARING FUNCTION

CLEARING DIALED NUMBERS IN CALL LOGS

This function clears dialed number in call logs.

- 1 Press [], then [0], then enter [PASSWORD], then [6], then [3].

The default password is the last 4 digits of your phone number.

- 2 Select the parameter (NO, YES) by using the scroll keys. Press [].

MEMORY CLEARING FUNCTION

CLEARING HOME CALLS

This function clears air time used in home service areas.

- 1 Press [], then [0], then enter [PASSWORD], then [6], then [4].

The default password is the last 4 digits of your phone number.

- 2 Select the parameter (NO, YES) by using the scroll keys. Press [].

CLEARING ROAM CALLS

This function clears air time used in other service areas.

- 1 Press [], then [0], then enter [PASSWORD], then [6], then [5].

The default password is the last 4 digits of your phone number.

- 2 Select the parameter (NO, YES) by using the scroll keys. Press [].

CHAPTER 6

SUPPLEMENTARY FUNCTIONS

- ❶ Stopwatch
- ❷ Calculator
- ❸ Bio-Rhythm

STOPWATCH

STOPWATCH

- 1 Press [], then [7], then [1].

- 2 Press [ / ] to control the stopwatch.
 - [] controls Start/Stop
 - [] controls Split/Split Release/Reset.
 - The time unit displayed on the LCD in 1/100 of a second.

- 3 Press [] to exit and return to the initial display.

[60]

CALCULATOR

CALCULATOR

- 1 Press [], then [7], then [2].

CALCULATOR
 0.
 CAL PREV

- 2 Using the calculator.
 - Definitions
 - + : [], - : [], × : []
 - ÷ : [], = : [], . : []
 - Up to 7 integer digits and up to 2 decimals can be displayed. If the calculated result has more than 7 digits, the result is displayed in 7 digit logarithm.
 - There is no (-)sign. To express a negative number, use '0-value'. To see the help screen, press the volume key, even if you are in the middle of a calculation.
 - EXAMPLE
To calculate $128 \times 32 =$
 1. Enter 128
 2. Press []
 3. Enter 32
 4. Press []

[61]

BIO-RHYTHM

This function identifies the bio-rhythms of today or a specific day using solar calendar.

1 Press [], then [7], then [3].

2 Press [3] "BIRTHDAY".

- Enter your solar calendar birthday in year/month/date, and then press [OK].

3 To find out today's bio-rhythm, select TODAY and to find out bio-rhythm of a specific day, select SOMEDAY.

- Bio-rhythm function is available only when the phone can register the current time from the network system.
- For Some Day Bio, you cannot enter dates before your birthday.
- For Birthday, you cannot enter dates later than today's date.

- Physical, Emotional and Intelligent quotients appear with a number showing how many days have passed since your birth date for the date you want to find out. Bio-rhythm displayed on the top portion of the screen.
- What is Bio-rhythm?
Bio-rhythm is a life rhythm which is governed by three rhythm curves called physical, emotional, and intelligent and starts from our body from our birth to death.
 - Physical rhythm.
 - This rhythm controls wide-ranging physical elements related to resistance to diseases, physical strength, adjustment of muscle exercise, speed, physiology and other basic physical functions with a cycle of 23 days.
 - Emotional rhythm.
 - This rhythm adjusts creativity, sensitivity, mental health and recognition about world and humans with a cycle of 28 days.
 - Intelligent rhythm.
 - This rhythm affects our memory, susceptibility to fright, acceptance of knowledge and logical and analytic power with a cycle of 33 days.

[62]

CHAPTER 7

VOICE MAIL AND TEXT MESSAGE

This chapter describes convenient functions that allow you to check voice mail and send and receive text messages with the handset.

- Receiving a Message
- Voice Mail
- Send New(Sending message)
- Inbox(Checking Received Message)
- Outbox(Checking Sent Message)
- Settings
- Filed
- Erase Messages
- Reference

[63]

RECEIVING A MESSAGE

Select the stored message by using the
scroll keys, then press [SEL].

2 Press [SEL].
The text message is displayed.
Then press [OPTS].

3 3.1 If the text message is saved from the "Inbox",
the following is displayed.

3.2 If the message is saved from the "Outbox",
the following is displayed.

[73]

ERASE MESSAGES

ERASE MESSAGES

- 1 Press [], then press [7] "Erase Msgs".

- 2 To erase inbox messages, press [1].

- 2 To erase outbox messages, press [2].

- 2 To erase filed messages, press [3].

[74]

REFERENCE(WRITING MESSAGE)

You can enter letters and numbers into your phone for a person's name and phone number, writing a text message, and so on. There are two ways to do this:

1. Using standard text input
2. Using T9 mode text input

USING STANDARD TEXT INPUT

- 1 Select the Abc mode, by using the [] keys.

- When you select this mode, the ABC icon appears as visual confirmation.

- "Find the key that corresponds to the letter you want to enter."
- Press it as many times as needed for the letter to appear on the screen.

- For example, to enter the name John:
 - Press [5] J
 - Press [6] [6] [6] o
 - Press [4] [4] h
 - Press [6] [6] n

[75]

REFERENCE(WRITING MESSAGE)

USING T9 MODE TEXT INPUT

KEY	FUNCTION
 Mode	Press to change mode. [T9Abc][Abc][123][Special characters mode]
[0] Next	Press to view the next matching word if the underlined word is not the word you intended.
[#] Space	Press once to accept a word and add a space.
[*] Shift	Press to select standard text input or T9 mode text input. [Abc], [ABC], and [abc] indicate stand text input. [T9Abc], [T9ABC], and [T9abc] indicate predictive text input.
 Clear	Press once to delete the character to the left of the cursor.
 Left, Right	To move cursor.

[76]

REFERENCE(WRITING MESSAGE)

USING T9 MODE TEXT INPUT

1 T9 mode is the default mode.

2 Select the T9Abc mode, by using the [] keys.

- This method allows you to write using a built-in dictionary.
- With predictive text input, you only need to press each number key once for each letter.

-For example, to write **John** with the English dictionary selected:

-[5] (for J)

MESSAGE? T9Abc
K
NEXT MODE

-[6] (for o)

MESSAGE? T9Abc
Km
NEXT MODE

-[4] (for h)

MESSAGE? T9Abc
Log
NEXT MODE

-[6] (for n)

MESSAGE? T9Abc
John
NEXT MODE

<The display shows the above words for each key pressed.>

[77]

REFERENCE(WRITING MESSAGE)

WRITE WITH T9 MODE TEXT INPUT

Select the T9 Abc mode, by using the [] keys.

1 Press each key once for each letter.

-For example, to write "John" press.
[5] [6] [4] [6]

2 Press to view the next matching word if the underlined word is not the word you intended.

If the word is correct
- then press [#]

If the word is not correct
- then press [0]

- then press [0],
the word is correct,
then press [#]

REFERENCE(WRITING MESSAGE)

3 Insert number

- To add a number to the message.
- Press [] key until 123 appears.
- To select the numbers you want.

4 Insert Symbols

- Press [] key until symbol screen appears.
- Use numeric keys to select the character you want, then press insert.

Press [],

Press [],

Press [],
then press insert

REFERENCE(WRITING MESSAGE)

CHAPTER 8

5 Write compound words

- Write the first part of the word and press [▲] key to accept it.
- Write the last part of the compound word and press [#] key to enter the word in memory.

- For example, to write "Whitehouse"

[9] [4] [4] [8] [3] [▲]

[4] [6] [8] [7] [3]

Then press [#] key.

MAKING AN EMERGENCY CALL

- 1 E911 in Lock Mode
- 2 E911 Using Any Available System

MAKING AN EMERGENCY CALL

This is the enhanced 911 feature.

E911 IN LOCK MODE

- 1** Enter 911 and press [].

When a call ends, the phone returns to the emergency mode.

- 2** Reserve Emergency mode during 5 minutes.

MAKING AN EMERGENCY CALL

E911 USING ANY AVAILABLE SYSTEM

- 1** Enter 911 and press [].

When a call ends, the phone returns to the emergency mode.
The phone tries to make an emergency call using any available system.

- 2** Reserve Emergency mode during 5 minutes.

CHAPTER 9

DATA SERVICE

- ❶ Receive Mode
- ❷ Flow Control
- ❸ Ability of Wireless Data Communication

RECEIVE MODE

RECEIVE MODE

[87]

ABILITY OF WIRELESS DATA COMMUNICATION

ABILITY OF WIRELESS DATA COMMUNICATION

If you use the data communication, install program provided by service office or phone connected network program of window 95/98 and then, you can use PC communication and internet connected by wireless communication networks.

If you buy optional(not to be sold)data communication cable, you can use this ability without upgrading other software.

Contents of the install environment and other things in detail refer to the inside manual when you buy the data communication cable or homepage of the service office.

CHAPTER 10

INTERNET BROWSER

This chapter describes convenient functions that allow you to access Wireless internet with the handset.

- 1 Start Internet Browser
- 2 Browser Menu

START INTERNET BROWSER

ACCESS WIRELESS INTERNET

- 1 To access wireless internet network, press [] key. Then internet browser start.

[90]

BROWSER MENU

The browser menu is a list of actions necessary for full operation of the browser.

To enter the browser menu, press [], then press [] again and hold.

RELOAD

Selecting the reload item from the browser menu reloads the current deck the first time.

- 1 Press [], then press [1].

HOME

When the home item is selected from the browser menu, the phone displays the home deck.

- 1 Press [], then press [2].

[91]

BROWSER MENU

BOOKMARKS

When the bookmarks item is selected from the browser menu, the browser displays the user's bookmarked items.

1 Press [], then press [3].

MARK SITE

When the mark site item is selected from the browser menu, the browser add the current deck to the user's bookmark list.

1 Press [], then press [4].

"No bookmarks service site" is displayed, when the site cannot support bookmarks service.

BROWSER MENU

ABOUT PHONE.COM

When the about phone.com item is selected from the browser menu, the browser is displayed with the browser version and copyright information. The device layer version is also displayed.

1 Press [], then press [5].

ADVANCED...

Selecting the advanced item in the browser menu displays the advanced menu items.

1 Press [], then press [6].

BROWSER MENU

SHOW URL

Selecting the show URL action displays the URL of the current deck.

- 1 Press [], then press [6], then press [1].

HTTP://www.
Hyundai.com/index

HOMEPAGE

Selecting the homepage item from the browser menu, enables the user to change the homepage.

- 1 Press [], then press [6], then press [2].

BROWSER MENU

SET UP.LINK

Selecting set UP.link item from the browser menu displays a screen that allows the user to select an alternate UP.Link.

- 1 Press [], then press [6], then press [3].

OFFLINE SERVICES

Selecting the offline services item from the browser menu navigates the user to a list of installed channel application. Selecting a particular application navigates the user to the entry point of the application.

- 1 Press [], then press [6], then press [4].

OFFLINE SERVICES
(EMPTY)

BROWSER MENU

OUTBOX

When the outbox item is selected from the browser menu, a status screen is displayed that shows the user how many items are pending delivery and the age of the oldest item.

- 1 Press [], then press [6], then press [5].
- 

OUTBOX
(EMPTY)

RESTART UP.BROWSER

Selecting restart from the browser menu causes the deck history and deck cache to be cleared and a new session with the UP.Link to be started.

- 1 Press [], then press [6], then press [6].
- 

1:EMAIL
2:CONTACTS
3:CALENDAR
OK INBOX

[96]

BROWSER MENU

ENCRYPTION

Selecting the encryption item from the browser menu displays a list of security-related items.

- 1 Press [], then press [6], then press [7].
- 

ENCRYPTION
1:VERITY KEY
2:NEW KEY
OK

[97]

CHAPTER 11

SAFETY INFORMATION FOR WIRE- LESS HANDHELD PHONES

- ❶ Driving Safety
- ❷ Electronic Devices
- ❸ Other safety Guidelines
- ❹ Precautions
- ❺ Warning
- ❻ Safety Information for FCC RF Exposure

SAFETY INFORMATION FOR WIRELESS HANDHELD PHONES

Read This Information Before Using Your Handheld Portable Cellular Telephone

EXPOSURE TO RADIO FREQUENCY SIGNALS

Your wireless handheld portable telephone is a low power radio transmitter and receiver. When it is ON, it receives and also sends out radio frequency (RF) signals.

In August, 1996, the Federal Communications Commissions (FCC) adopted RF exposure guidelines with safety levels for handheld wireless phones. Those guidelines are consistent with the safety standards previously set by both U.S. and international standards bodies:

- ANSI C95.1 (1992) *
- NCRP Report 86 (1986) *
- ICNIRP (1996) *

Those standards were based on comprehensive and periodic evaluations of the relevant scientific literature. For example, over 120 scientists, engineers, and physicians from universities, government health agencies, and industry reviewed the available body of research to develop the ANSI Standard (C951).

The design of your phone complies with the FCC guidelines (and those standards).

* ;
American National Standards Institute;
National Council on Radiation protection and measurements;
International Commission on Nonionizing Radiation Protection.

ANTENNA CARE

Use only the supplied or an approved replacement antenna. Unauthorized antennas, modifications, or attachments could damage the phone and may violate FCC regulations.

SAFETY INFORMATION FOR WIRELESS HANDHELD PHONES

DRIVING SAFETY

Talking on the phone while driving is extremely dangerous and is illegal in some states. Remember, safety comes first. Check the laws and regulations on the use of phones in the areas where you drive. Always obey them.

Also, if using your phone while driving please:

- Give full attention to driving. Driving safety is your first responsibility.
- Use hands-free operation, if available.
- Pull off the road and park before making or answering a call, if driving conditions require.

If you must use the phone while driving, please use one-touch, speed dialing, and auto answer modes.

An airbag inflates with great force. DO NOT place objects, including both installed or portable wireless equipment, in the area over the airbag or in the air bag deployment area. If in-vehicle wireless equipment is improperly installed and the air bag inflates, serious injury could result.

WARNING: Failure to follow these instructions may lead to serious personal injury and possible property damage.

SAFETY INFORMATION FOR WIRELESS HANDHELD PHONES

ELECTRONIC DEVICES

Most modern electronic equipment is shielded from RF energy. However, certain electronic equipment may not be shielded against the RF signals from your wireless phone.

Pacemakers

The Health Industry Manufacturers Association recommends that a minimum separation of six (6") inches be maintained between a handheld wireless phone and a pacemaker to avoid potential interference with the pacemaker. These recommendations are consistent with the independent research by and recommendations of Wireless Technology Research.

If you have a pacemaker:

- ALWAYS keep the phone more than six inches from your pacemaker when the phone is turned on.
- Do not carry the phone in a breast pocket.
- Use the ear opposite the pacemaker to minimize the potential for interference.
- If you have any reason to suspect that interference is taking place, turn your phone OFF immediately.

Hearing Aids

Some digital wireless phones may interfere with some hearing aids. In the event of such interference, you may want to consult your service provider (or call the customer service line to discuss alternatives).

[102]

SAFETY INFORMATION FOR WIRELESS HANDHELD PHONES

ELECTRONIC DEVICES

Other Medical Devices

If you use any other personal medical device, consult the manufacturer of your device to determine if they are adequately shielded from external RF energy. Your physician may be able to assist you in obtaining this information.

Turn your phone OFF in healthcare facilities when any regulations posted in these areas instruct you to do so. Hospitals or healthcare facilities may be using equipment that could be sensitive to external RF energy.

Vehicles

RF signals may affect improperly installed or inadequately shielded electronic systems in motor vehicles. Check with the manufacturer or its representative regarding your vehicle. You should also consult the manufacturer of any equipment that has been added to your vehicle.

Posted Facilities

Turn your phone OFF where posted notices so require.

[103]

SAFETY INFORMATION FOR WIRELESS HANDHELD PHONES

OTHER SAFETY GUIDELINES

Aircraft

FCC Regulations prohibit using your phone while in the air. Switch OFF your phone before boarding an aircraft.

Blasting Areas

To avoid interfering with blasting operations, turn your phone OFF when in a "blasting area" or in areas posted: "Turn off two-way radio." Obey all signs and instructions.

Potentially Explosive Atmospheres

Turn your phone OFF when in any area with a potentially explosive atmosphere and obey all signs and instructions. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death.

Areas with a potentially explosive atmosphere are often, but not always, clearly marked. They include fueling areas such as gas stations; below deck on boats; fuel or chemical transfer or storage facilities; vehicles using liquefied petroleum gas (such as propane or butane); areas where the air contains chemicals or articles, such as grain, dust, or metal powders; and any other area where you would normally be advised to turn off your vehicle's engine.

[104]

SAFETY INFORMATION FOR WIRELESS HANDHELD PHONES

PRECAUTIONS

Your Handheld Portable Telephone is a high quality piece of equipment. Before operating the equipment, read all instructions and cautionary markings on (1) AC Adaptor (2) Battery and (3) Product Using Battery.

1. DO NOT use this equipment in an extreme environment where high temperature or high humidity exists.
2. DO NOT abuse the equipment. Avoid striking, shaking or shocking. When not using the unit, lay down the unit to avoid possible damage due to instability.
3. DO NOT expose this equipment to rain or spilled beverages.
4. DO NOT use unauthorized accessories.
5. DO NOT disassemble the phone or its accessories. If service or repair is required, return unit to an authorized Audiovox cellular service center. If unit is disassembled, the risk of electric shock or fire may result.
6. DO NOT short-circuit the battery terminals by metal items etc.

[105]

SAFETY INFORMATION FOR WIRELESS HANDHELD PHONES

WARNING

The following offenses are punishable by fine, imprisonment, or both:

- Using obscene, indecent, or profane language.
- Using the unit to give off false distress calls.
- Wiretapping or otherwise intercepting a telephone call, unless that person has first obtained the consent of the parties participating in the call.
- Making anonymous calls to annoy, harass, or molest other people.
- Charging to an account without authorization to avoid payment for service.
- Refusing to yield a party line when informed that it is needed for an emergency call (It is also unlawful to take over a party line by stating falsely that it is needed for an emergency).

SAFETY INFORMATION FOR FCC RF EXPOSURE

WARNING! Read this Information before using your phone

CAUTIONS

In August 1996 the Federal Communications Commission (FCC) of the United States with its action in Report and Order FCC 96-326 adopted an updated safety standard for human exposure to radio frequency electromagnetic energy emitted by FCC regulated transmitters. Those guidelines are consistent with the safety standard previously set by both U.S. and international standards bodies. The design of this phone complies with the FCC guidelines and these international standards.

Use only the supplied or an approved antenna. Unauthorized antennas, modifications, or attachments could impair call quality, damage the phone, or result in violation of FCC regulations. Do not use the phone with a damaged antenna. If a damaged antenna comes into contact with the skin, a minor burn may result. Please contact your local dealer for replacement antenna.

Body-worn Operation

This device was tested for typical body-worn operation with the back of the phone kept 1 inch (2.54cm) from the body. To comply with FCC RF exposure requirements, a minimum separation distance of 1 inch (2.54cm) must be maintained between the user's body and the back of the phone, including the antenna, whether extended or retracted. All belt-clips, holsters and similar accessories used by this device must not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with FCC RF exposure limits and should be avoided.

Vehicle Mounted External Antenna(optional, if available)

A minimum separation distance of 7.9 inches (20cm) must be maintained between the user/bystander and the vehicle mounted external antenna to satisfy FCC RF exposure requirements.

Note: For more information about RF exposure, please visit the FCC website at www.fcc.gov

CHAPTER 12

WARRANTY

- ❶ Protect Your Warranty
- ❷ 12 Month Limited Warranty

[108]

[109]

PROTECT YOUR WARRANTY

Read your Warranty carefully, with the special consideration to paragraph seven of the Limited Warranty for your unit.

“Warranty does not apply to... or to any product or part thereof which has suffered through alteration... mishandling misuse, neglect or accident”.

Many companies are making look alike accessories and in some cases, promoting that their product is equal to or better than the Audiovox product. Be careful. Some of these products may not be compatible to use with your Audiovox product and may damage the unit or cause it to malfunction. If service is required on your unit and it is determined that a non-Audiovox accessory has created the problem with your unit, the Warranty will not apply. In addition, if the unit has already suffered irreversible damage by reason of a non-compatible accessory, the Warranty will be voided. To protect your Warranty use only compatible accessories which cannot damage or interfere with the functioning of your Audiovox product.

AUDIOVOX COMMUNICATIONS CORP.
