Behold Kyocera's 2300 Series.
Great-looking, lightweight, fully loaded phones.

What lies beneath that brilliant-blue backlit display? Well, for starters, a speakerphone and voice-activated dialing. A scheduler to help you keep track of meetings and personal engagements. Tetris® and other games (for when you have no meetings or personal engagements). Productivity tools like voice memos, calculator, contact directory, stopwatch and alarm clock. A Wireless Application Protocol (WAP) browser that lets you view certain Web sites specially formatted to your PCS phone.

Imagine. All that and looks, too.

Features

Feature packed with the very latest in color accent.

- Lightweight, stylish, ergonomic design with easy to use navigation (available in two great color choices – blue and red)
- Brilliant-blue luminescent backlighting of keypad and display
- Resident games and ringers with enhanced multi-tone sound (includes vibrate alert and 4 animated screen savers)
- Supports PCS Ringers & More℠ service allowing you to personalize your phone with downloadable ringers and images
- Speakerphone and personal organizer (scheduler, calculator, alarm clock, etc.)
- Voice-activated dialing and memo
- Multiple language options
- Contact directory stores up to 200 personal and business entries
Trimode

- CDMA digital PCS, CDMA digital cellular and analog – three modes of network coverage to keep you connected virtually anywhere on the enhanced Sprint Nationwide PCS Network
